### **Rose Mack Exhibition**

**Daily to 31 Jul. 10am-5pm**

A graduate of Canterbury University, Rosie Mack studied classical oil painting with Robert Greenham and lives and works in North Cornwall. This exhibition, inspired by the landscapes of Cornwall, draws from many sources "imprinting a memory of light, colour, place and shape".

"The landscape of Cornwall has long been my inspiration, it's ephemeral light qualities and ever changing moods fascinate me. One of my ongoing themes is the exploration of the rich local landscape with its range of industrial architecture, which acts as man-made geological layers. The remains of the old tin and copper mines both blend into and form the existing geography, the previously bruised landscape being absorbed back into nature."

**About the National Trust**

The National Trust is an independent conservation charity founded in 1895 by three people: Octavia Hill, Sir Robert Hunter and Hardwicke Rawnsley, who saw the importance of the nation's heritage and open spaces and wanted to preserve them for everyone to enjoy. Today, across England, Wales and Northern Ireland, we continue to look after places so people and nature can thrive.

We care for more than 250,000 hectares of countryside, 780 miles of coastline, 1 million collection items and 500 historic properties, gardens and nature reserves. In 2022/23 we received 24 million visitors to our pay for entry sites. The National Trust is for everyone - we were founded for the benefit of the whole nation, and our 5.7 million members, funders and donors, and tens of thousands of volunteers support our work to care for nature, beauty, history for everyone, for ever.
